February 2005

Intermec Price Guide – February, 2005

The prices listed in this pricing guide supersede all previous pricing and are subject to approval by Intermec Technologies Corporation. All pricing is effective February 01, 2005. The electronic PDF and Excel versions are available now at the URLs listed below.

Internal users will find the latest pricing information from the Global Sales & Service (GSS) site available by going to the Intermec intranet at <http://global.intermec.com>. Then under “Intermec Sites” select “Global Sales & Service” and then your appropriate region view. Once on the GSS site select Sales and Marketing>Products>Pricing.

Partners will find the latest pricing information from the Intermec public website at <http://www.intermec.com>. Go to the partner login button at the upper right corner of the home page. Please note that this site will require your GSS login and password. If you do not have access to the GSS site, please contact Lynne Hewitt at lynne.hewitt@intermec.com or Jim Kircher at jim.kircher@intermec.com.

This Price Guide includes any updates and changes that have taken place and announced through Product Alerts since the release of the last price guide dated January 10, 2005. All changes since the January Price Guide are noted with an asterisk on the far right of each page.

Note: All configurations listed as Preferred will ship within 5 days of order placement. All those listed as Quick Ships will ship within 2 days of order placement.

Please direct any questions or comments to one of the following individuals.

Wavelink STUDIO COM SW

Wavelink Studio COM is a powerful set of tools for developing and deploying server-side enterprise wireless applications in COM-based environments.

These tools are specifically designed to support applications that require real-time data within a constantly-connected environment; such as retail store operations, warehouse management, inventory control, factory automation, transportation and logistics.

Required Components Include: Studio COM Server License, Studio COM Client License (New or Transfer), and Maintenance. Maintenance provides unlimited phone support and access to software updates.

Studio COM

474-043-709	Wavelink Studio COM Server (For new Studio users. Order one Studio COM Server license per server deployed. Includes single-user COM Client license. For each additional mobile user, order a COM Client license based on device type. Requires annual maintenance PN 474-043-721.)	\$195		\$254		D 3
474-043-710	Wavelink Studio COM Client 700 (For new Studio users. Includes single-user COM Client license for Intermec 700 series. Supports PPC 2002 Professional and WM2003. Requires annual maintenance PN 474-043-722.)	\$195		\$254		D 3
474-043-712	Wavelink Studio COM Client Xfr 700 (For existing Studio users moving to a new device. Includes a single-user COM Client license for Intermec 700 series. Supports PPC 2002 Professional and WM2003. Requires annual maintenance PN 474-043-722. Software License Cancellation Form must accompany order. Form can be found on the GSS website.)	\$88		\$114		D 3
474-043-715	Wavelink Studio COM Client CK30 (For new Studio users. Includes single-user COM Client license for Intermec CK30. Requires annual maintenance PN 474-043-722.)	\$195		\$254		D 3
474-043-716	Wavelink Studio COM Client 2400 (For new Studio users. Includes single-user COM Client license for Intermec 2400 series, specifically 2415, 2425 & 2455. Requires annual maintenance PN 474-043-722.)	\$195		\$254		D 3
474-043-717	Wavelink Studio COM Client Xfr CK30 (For existing Studio users moving to a new device. Includes a single-user COM Client license for Intermec CK30. Wavelink Studio Edge SW

Wavelink Studio EDGE is a powerful solution for rapidly developing mission-critical applications running in a Java environment. Studio EDGE is specifically designed to support mission-critical applications that require flexibility to move from a constantly-connected, casually-connected, or disconnected environment; such as package delivery, route accounting, field service, retail store operations, warehouse management, inventory control, and factory automation.

Required Components Include: Studio EDGE Client License (New or Transfer) and Maintenance. Maintenance provides unlimited phone support and access to software updates. Wavelink includes a free Apache Tomcat server for deployment.

Studio EDGE

474-043-713	Wavelink Studio EDGE Client 700 (For new Studio users. Includes single-user EDGE Client license for Intermec 700 series. Supports PPC 2002 Professional and WM2003. Requires annual maintenance PN 474-043-771.)	\$195		\$254		D	3
474-043-714	Wavelink Studio EDGE Client Xfr 700 (For existing Studio users moving to a new device. Includes a single-user EDGE Client license for Intermec 700 series. Avalanche-Collection Software

Device and Configuration Management

Building on the framework offered by Wavelink and extending Intermec value with the ICCU, device and configuration management from Intermec offers a centralized management solution for handheld, pen and vehicle computers as well as many other Intermec devices. Leveraging industry standards, GUI-based, and easily distributed, the Intermec Device and Configuration management solution eases deployments, reduces hands-on maintenance, and lowers TCO.

Avalanche Console

Centralized device management console software. Provides Graphical user Interface (GUI) to managed devices and configurations. Installed on a Windows 2000 or XP platform. Minimum of one (1) console required per customer. Complex or remote installations may require multiple consoles.

474-043-530	Wavelink Avalanche Console Bundle (Console bundle. Includes 25 client licenses. Maintenance 474-043-565 is required.)	\$1,500		\$1,950		C	3
-------------	---	---------	--	---------	--	---	---

Avalanche Console Maint

474-043-565	Wavelink Avalanche Console, Maint (One Maintenance agreement per console 474-043-530. Annual Maintenance for console and first 25 client enablers. Renewable.)	\$300		\$390		F	3
-------------	--	-------	--	-------	--	---	---

Avalanche Enabler Client

New device and configuration management software for Intermec devices. A centralized console, sold separately, combines with the client enabler to offer powerful device management. The client software resides on the managed device and communicates through an agent to the console.

474-043-501	SW/LIC WVLK Avalanche Client NonIntermec (Additional client licenses beyond console bundle of 25. One client license per device beyond console bundle of 25 Maintenance 474-043-564 is required. License for non-Intermec device.)	\$50		\$65		C	3
474-043-502	SW/LIC WVLK Avalanche Client, CK30 (Additional client licenses beyond console bundle of 25. One client license per device beyond console bundle of 25 Maintenance 474-043-564 is required. License for Intermec CK30.)	\$50		\$65		C	3
474-043-503	SW/LIC WVLK Avalanche Client, 700C (Additional client licenses beyond console bundle of 25. One client license per device beyond console bundle of 25. Maintenance 474-043-564 is required. License for Intermec 700C.)	\$50		\$65		C	3

Syvox Speech Logistics

SyVox Speech Logistics provides speech-directed data collection for hands free picking and cycle-count activities warehousing and distribution environments.

Medallion Software Maintenance is required for all SyVox software products. Maintenance provides phone support and software upgrades.

SyVox Speech Client

The SyVox speech client resides on a 750 mobile computer and provides ASR and TTS functionality. ASR (automatic speech recognition) converts spoken user input into text. TTS (text to speech) converts text prompts into synthesized speech commands.

The SyVox speech client attaches to the SyVox speech controller over an 802.11 wireless network. The speech client is not currently available for stand-alone use outside a wireless LAN network. One SyVox speech client license is required for each 750 mobile computer on which the client software will run.

System Requirements:

Intermec 750 Mobile Computer, Minimum 64MB Secure Digital card. Recommend verified configuration with Pocket PC 2002.

Headset (See Product Links for approved headsets from VXI),

Holster (See Products Links for part# IN-SW750-PLG from Rhodiana),

SyVox Speech Controller and Selected SyVox Application Modules

472-045-501	Maint Sy Vox Speech Client	\$85		\$111		F	6
474-045-501	SW/LIC Sy Vox Speech Client (Requires Annual Maintenance 472-045-501)	\$475		\$618		C	6

SyVox Speech Controller

The SyVox speech controller connects the SyVox speech client to the picking and/or cycle count application module. It also provides the interfaces through which the picking module and cycle count modules are configured and provides the ability to report on the end users use of the system. One license must be purchased for each Server on which the SCU software is installed. In a clustered environment, one SCU license must be purchased for each cluster member.

System Requirements:

Intermec G4100 OR client-supplied server hardware with the following minimum requirements:

Windows 2000, Windows NT

Minimum 256MB RAM

Minimum 20MB Disk Space

Minimum processor 500 MHz PIII, at least RAID 1

SyVox Speech Client and Selected SyVox Application Modules

472-045-504	Maint Sy Vox Speech Controller	\$1,079		\$1,403		F	6
474-045-504	SW/LIC Sy Vox Speech Controller (Requires Annual Maintenance 472-045-504)	\$5,995		\$7,793		C	6

SyVox Application Modules

SyVox application modules are industry specific speech recognition applications. The applications contain configurable business rules for handling a variety of operational scenarios. Applications for Picking and Cycle Count are available today.

Picking options include support for multiple picking strategies such as straight line picking, batch picking, zone picking and multiple belt picking.

One license must be purchased for each concurrent user.

System Requirements: SyVox Speech Client, SyVox Speech Controller

472-045-502	Maint Sy Vox Picking Module	\$215		\$280		F	6
472-045-503	Maint Sy Vox Cycle Count Module	\$107		\$139		F	6
474-045-502	SW/LIC Sy Vox Picking Module (Requires Annual Maintenance 472-045-502)	\$1,195		\$1,553		C	6
474-045-503	SW/LIC Sy Vox Cycle Count Module (Requires Annual Maintenance 472-045-503)	\$595		\$774		C	6

SyVox Speech Demo

The SyVox Speech Demo provides an easy method for demonstrating speech recognition capabilities on a 750 mobile computer without installing the full SyVox system. On-line help provides a full listing of supported speech commands.

One license is required for each 750 mobile computer on which the grammar tester will run.

474-045-505	SW/LIC Genesta SyVox Grammar Tester	\$150		\$195		X	6
-------------	-------------------------------------	-------	--	-------	--	---	---

SyVox Pilot System

The SyVox pilot system provides a low-cost method for SyVox pilots. The pilot system includes 1 SyVox Speech Client, a SyVox Speech Controller licensed for one user and a SyVox Picking Module licensed for one user. This system is for pilot use only.

474-045-506	SW/LIC SyVox Pilot System	\$475		\$618		C	6

Direct Store Delivery Software Applications

Intermec provides a variety of application software for our targeted Direct Store Delivery Markets.

Miscellaneous DSD Apps

Choose from a variety of utility applications that will help you test various aspects of your route accounting system. The DEX tool kit for example, allows you to simulate the "back door" of your favorite grocery retailer, and simulate DEX transaction.

Skypay™

Skypay Wireless Credit Card Payment

Skypay is a PocketPC software application for processing credit card payments in real-time. By implementing real-time credit card payment, companies can decrease fees paid for credit card processing services while improving cash flow with immediate payment. Skypay is available in the US only at this time.

The Skypay solution requires credit card processing services from Fifth-Third Processing Solutions. Fees for credit card processing services will vary depending on each customer's situation. Please ensure that customer has received a merchant ID from Fifth-Third before ordering software. Fifth-Third reserves the right to reject any application for credit card processing services.

Skypay must be used with a certified hardware configuration. Please note that a printer is a required component of the solution. Skypay is certified for use on the Skypay network with the following hardware configurations.

720 w/ GPRS radio, 782TCR printer
760 w/ GPRS radio, 782TCR printer
760 w/ CDMA radio, 782TCR printer

MobileLAN access 2100

Power Supply and US Power Cord Included

The Intermec MobileLAN access 2100 Access Point has a NEMA4/IP54 rated case is for harsh industrial solutions. Supports all wireless networking radio standards including IEEE802.11b and 900MHz. The product supports both wireless bridging and IPTunneling. Offers both 10/100 Ethernet and Fiber Optic Connectivity.

MobileLAN access WA21B

The Intermec MobileLAN access WA21 Access Point has an IEC IP54 rated case for harsh industrial solutions. Supports all 802.11 wireless networking radio standards ONLY(no legacy radios). The product supports both wireless bridging and IPTunneling. Offers either 10/100 Ethernet or Fiber Optic Connectivity. Also offering an option for integrated Power Over Ethernet. ANTENNAS NOT INCLUDED, ORDER SEPARATELY (except 904 options).

SyVox Certification Program - Participants must be an "Approved Honors Partner"		
SyVox Speech Logistics	2 Days	\$6,500.00
VAR Certification Program - Each Additional Participant "No kit issued, 1 Study Guide, & 1 Exam"	Company Fee	\$3,500.00
Level 1: 1 Mobile Systems Components Kit per VAR:Video(4), CD's(3), 1 Study Guide, & 1 Exam	Self Study	\$1,500.00
Level 2: 6920 Communications Server	3 Days	\$1,800.00
Level 3: (Under Revision)	TBD	TBD
Custom Training	Quoted	Quoted
End User	TBD	TBD
Base Software Applications Training		
ArciTech	1 Day	\$1,500.00
i-gistics	1 Day	\$1,500.00
Sales, Delivery, & Merchandising (SDM) (generic)	1 Day	\$1,500.00
RoutePower 32 (generic)	1 Day	\$1,500.00
Standard Distribution (generic)	1 Day	\$1,500.00
One Base Software Applications Training session costs \$1,500 per session (10 persons maximum).		
If more than 10 trainees are in attendance, a \$100 fee will be charged for each additional trainee, up to a maximum of two (2) additional trainees (for a total of 12).		
The maximum number of sessions per day is two (2).		

*** Price is set for Partners and Customers - per participant per course.**

Professional Service Offers

Offer	Description	Pricing
Consulting Services	Wireless Network and RFID Consulting, Network Design and Planning, and Network Integration Strategy	\$2,000/Day - Contact Professional Services Center for Quote **
Project Management	Resource Management and Solutions Delivery (Manage all resources to deliver a complete turnkey solution)	\$200/Hour - Contact Professional Services Center for Quote**
On-Site Network Site Engineering	Wireless Network Site Survey, Planning & Certification	Please refer to Site Survey Table below or contact Professional Services Center for Quote**
System Installation & Integration *	Systems Installation, Integration & Configuration	Contact Professional Services Center for Quote**
Logistics Control Center (LCC) Services	Equipment Staging & Configuration	Contact Professional Services Center for Quote**
Miscellaneous On-Site Support	Troubleshooting, Go-Live Support, Site Walk-Through, Spectrum Analysis, Power Analysis, Load Analysis, etc	Contact Professional Services Center for Quote**

* System Installation/Integration is based on the installation of 4 to 6 access points per day. Installation does not include AC power, wiring, or cabling.

** To contact Professional Services, please call 1-800-755-5505 and select option 4.

802.11g – 48/54MB	N/A	\$1795	\$1995	\$2205	\$3990

Note: The Site Survey pricing listed above does not include zone charges. All Site Survey pricing includes a Site Survey Report. Facility size over one million square feet will require special quote. Please call 1-800-755-5505.

Site Certification \$990 per site.

Site Survey and Installation Zone Charge Schedule

Site Survey and Installation charges apply to customer site locations within 75 miles of the nearest major city zip code. Customer locations beyond 75 miles are subject to the following Zone Charges. Zone Charges are to cover travel. For distances over 500 miles, please call 1-800-755-5505 option 4.

Zone	Proximity (Miles)	Zone Charge
A	0-75	No Charge
B	76-150	\$395
C	151-250	\$795
D	251-500	\$1495
E	500+	QUOTE

Note: Above prices are only for U.S. based services. Zone Charges are not discountable. All dollar amounts are in U.S. Dollars. Prices are subject to change without notice.

Part Number	Description	US List	L/T (Days)	Disc Code
PROCART-DC	The ProCart DC is a rugged wireless mobile printing cart, which includes an advanced power module. The power module provides AC power on three standard 110VAC outlets. The cart is designed to support large capacity Intermec printers in on-site portable applications. The Advanced Power module is maintenance free, UL approved and easily recharged.	\$ 2,670.00	28	N
PROCART-SDC	The ProCart - SDC is a small footprint wireless mobile printing cart that includes a 5 wheel base, advanced power module, and a work surface. The power module provides AC power on three standard 110VAC outlets. The cart is designed to support medium and high capacity Intermec printers in on-site portable applications. The Advanced Power Module is maintenance free, UL approved and easily recharged. The work surface can be used to mount a VMU, Tablet, or HHT dock.	\$ 2,550.00	28	N
PROCART-SRT	The ProCart - SRT is a small footprint powered mobile cart designed for wireless retail applications. It has a five wheel base, advanced power module, a work surface, and a printer shelf. The printer shelf is designed to hold one or two small desktop printers. This retail cart also features a lower surface for a signage printer or high capacity barcode printer. The Advanced Power Module is maintenance free, UL approved and easily recharged.	\$ 2,650.00	28	N
UPG-PM	Upgrade option for extended capacity power module.	\$ 200.00	28	N

IDS produces and distributes a variety of powered and non-powered vehicle docks for mobile data collection terminals. IDS has also been successful producing an uninterruptible DC voltage power manager for the safe and constant power required for vehicle-mounted windows terminals.

Part Number	Description	US List	L/T (Days)	Disc Code
I-241XDSC	Vehicle mount docking cradle for Intermec 2410/2415 handheld computer. Permits use of handheld's pistol grip. Requires URB-10 mounting base.	\$ 220.00	45	N
I-242XDSC	Non-powered vehicle mount docking cradle for Intermec 2420/25 handheld computer. Permits use of handheld's pistol grip. Requires URB-15 or clamp-type mounting base.	\$ 300.00	45	N
I-242XDSC-L	Vehicle mounted non-powered docking cradle with locking tab for Intermec 2420/2425 handheld computer. Permits use of handheld's pistol grip. Requires URB-15 or clamp-type mounting base.	\$ 340.00	45	N
I-242XDSC-PL	Vehicle mounted docking cradle for Intermec 2420/2425 handheld computer. Provides power and in-unit battery charging. Permits use of handheld's pistol grip. Requires power supply and URB-15 or clamp-type mounting base.	\$ 440.00	45	N
I-243XDSC	Non-powered vehicle mount docking cradle for Intermec 2430/35 handheld computer. Dock permits use of handheld's pistol grip. Requires URB-15 or clamp-type mounting base.	\$ 300.00	45	N
I-243XDSC-L	Vehicle mounted non-powered docking cradle with locking tab for Intermec 2430/2435 handheld computer. Permits use of handheld's pistol grip. Requires URB-15 or clamp-type mounting base.	\$ 367.00	45	N
I-243XDSC-P	Powered vehicle mount docking cradle for Intermec 2430/35 handheld computer. On-dock serial port supports Pick N Run. Dock permits use of the handheld's pistol grip. Requires power supply and either URB-15 or clamp-type mounting base.	\$ 450.00	45	N
I-243XDSC-PL	Powered vehicle mount docking cradle with locking tab for Intermec 2430/35 handheld computer. On-dock serial port supports Pick N Run. Dock permits use of the handheld's pistol grip. Requires power supply and either URB-15 or clamp-type mounting base.	\$ 496.00	45	N
I-243XDTC-P	Powered desktop docking cradle for Intermec 2430/35 handheld computer. Provides "in-unit" battery charging. On-dock serial port supports data transfer. Dock permits use of the handheld's pistol grip. Requires ACN-12 power supply.	\$ 325.00	45	N

Established nearly 30 years ago, Printronix is a provider of industrial and back-office enterprise printing solutions. The Printronix T5000e series thermal bar code label printer series are now available via Intermec Product Links. The T5000 series printers come standard with Intermec programming language (IPL) and should be considered for Intermec customers who require 8" wide label printing.

Please note that this is a Printronix offering and the IPL programming language is a simulation to Intermec's programming language. The IPL simulation may not feature all the traditional and proven IPL commands. For customer support or questions please contact the Printronix Support team.

CS-Link PCT2
Large Screen. Small footprint.

The CS-Link PCT2 from UniComp has features not found in any other price checker. It's the latest advancement in Point of Information (POI) self-service terminals. Easy-to-use display screen that is 3x the size of a standard price checker but housed in a small footprint. Gives you large screen graphic capabilities with easy-to-use fonts. Easy Installation. Easy Integration. Includes a built-in Intermec CCD imager, built-in speaker, electronic billboard and an optional 12-button keypad. It's a Point of Information tool able to handle a wide variety of applications such as Product Information, In-store Promotions, Storewide Specials, Data Capturing, Couponing, Hiring and Screening, Locator Assistance, Healthcare Information, Human Resource Assistance, Employee Information and much, much more. The plus? It's all rolled up into one 'Beautiful Compact Design'.

8 Industrial Way	Bldg E, Suite 3 Salem, NH 03079

Visible Inventory solutions include iSeries sensors for monitoring inventory levels in bins, on shelves, and on pallets. Multiple iSeries masters communicate wirelessly to an iNode receiver. SuppliLink software captures all the real-time information gathered by the iSeries sensors. SuppliLink compares real-time inventory information from iSeries sensors to user-defined rules for inventory management. SuppliLink will take action, designated by the user, to ensure proper inventory levels are maintained. Custom sensors will be quoted at customers request.

Part Number	Description	US List	L/T (Days)	Disc Code

NiceLabel Labeling Software

NiceLabel and Pocket NiceLabel is a complete family of bar code labeling software products for basic desktop labeling, automated enterprise wide connectivity for label printing as well as mobile and wireless label printing. Pocket NiceLabel is a unique solution for building and implementing solutions for label printing on wireless Pocket PC mobile devices such as the Intermec 700. Labels can be printed from the Pocket PC via a COM port, IR port, direct TCP/IP to the printer via Wi-Fi or Bluetooth wireless. Pocket NiceLabel is an ActiveX component that allows mobile software applications to easily "bolt-on" label printing without writing printer code.

Part Number	Description	US List	L/T (Days)	Disc Code
NLE	NiceLabel Express Entry-level labeling software	\$ 245.00	3	N
NLP	Nicelabel Pro A full-featured software designed for professional label design and printing, including complete database support and integration options.	\$ 495.00	3	N
NLS	Nicelabel Suite Rich connectivity options allow the user to integrate labelling into any environment or use a stand-alone printing capabilities. NiceLabel Suite includes NiceLabel Pro - full-featured Label Design Software.	\$ 995.00	3	N
NLPPD	NiceLabel Pocket PC Designer Pocket NiceLabel is a software package for Windows CE and Pocket PC, which brings the power of barcode label printing to portable Windows CE compatible terminals. Pocket NiceLabel is an add-on module to the NiceLabel™ Suite of bar code label design and printing tools.	\$ 645.00	3	N
NLSCE	NiceLabel Suite for Windows CE Annual Support	\$ 1,295.00	3	N
NLSDD	NiceLabel Suite Dealer Demo	\$ 150.00	3	N
NLPPO	NiceLabel Pro Print-Only	\$ 295.00	3	N
NLSPO	NiceLabel Suite Print-Only	\$ 495.00	3	N
NLN5	Nicelabel Suite Networkversion for 5 concurrent users	\$ 1,995.00	3	N

BarTender, by Seagull Scientific, is the leading "true" Windows bar code label software. It provides full control over the label, bar codes, text, symbols and graphics and has powerful capabilities for reading data from other software. ActiveX Automation allows other programs to control BarTender as if they are doing the printing. Comes with true Windows printer drivers for the entire Intermec EasyCoder product line. Available in over 20 languages. Free, full-working downloads at www.seagullscientific.com.

Access Codes

These Access Codes are used to determine products that Honors Partners and Distributors are authorized to purchase. Eligible codes are summarized in Exhibit 1 of the Reseller Agreement. If you do not have the appropriate access code noted in Exhibit 1, you are not authorized to purchase the product.

Access Code 1 - Basic Devices

Open for resale to all resellers.

Access Code 2 – General Systems

Open for resale to all resellers that are in compliance with Wireless and Advertised Pricing Policies (document 608703) and Global Sales and Service Policy (document 608579).

Access Code 3 - Advanced Systems

Only Honors Partners with current reseller agreement with Intermec have access to Advanced Systems products.

Access Code 4 – Specialty RFID Solutions

Only Honors Partners who have received authorized RFID training from Intermec have access to these products.

Access Code 5 - Logistics / Field Service Solutions

Only those Honors Partners who have received Arci-Tech and i-gistics certification from Intermec have access to these products.

Access Code 6 - Speech Logistics Solutions

Only those Honors Partners who have received Sy-Vox certification from Intermec have access to these products.

Access Code 7 - Direct Store Delivery Solutions

Only those Honors Partners who have received DSD program certification from Intermec have access to these products.
