### EASYCODER® C4 PRINTER

The EasyCoder® C4 is the perfect printer for the inexperienced or busy user. Intermec's Connect & Print concept makes setting up and printing a quick and easy task.

Everything is included in the low price: software, drivers, cables, and labels. The printer comes complete with LabelShop® START—Intermec's label design software—and InterDriver™ Windows™ Driver. This enables the user to easily print bar code labels from Windows applications, including Microsoft® Office™ and other popular programs.

The printer's compact size, sturdiness, and silent operation make it ideal for a variety of applications.

The EasyCoder C4 prints faster and with better quality than most competing printers in its price range, and includes dual print technology for printing on various label types; both Direct Thermal and Thermal Transfer.

The unique double clam shell design makes it extremely easy to load supplies with the simple drop-in method. Label and ribbon changes can be done in no time.

The RS-232 Serial, USB, and Centronics interfaces are standard to facilitate printer connections. Firmware can easily be upgraded via the interface connection or by using the Flash memory cartridge.

The EasyCoder C4 printer comes with standard features like Self-Strip with Label-Taken sensor and Black Mark sensor. Among its optional features are:

- Flash/SRAM memory cartridges
- 300 dpi
- Cutter unit
- External keyboard

The EasyCoder C4 printer is compatible with EasyCoder 91 and EasyCoder 7422 applications, so adding the new EasyCoder C4 is simple.

With all its built-in benefits, the EasyCoder C4 is really a smart choice that offers excellent value for an affordable price.
