Intermec Price Guide

February 2007

All pricing included in this publication is effective as of February 1, 2007. Prices listed in this guide supersede all previous pricing. Both a PDF and Excel version of this price guide are now available at the URLs listed below.

Internal users will find the latest pricing information from the Global Sales & Service (GSS) site available by going to the Intermec intranet at <http://global.intermec.com>. Then under "Intermec Sites" select "Global Sales & Service" and then your appropriate region view. Once on the GSS site select Sales and Marketing>Products>Pricing.

Partners will find the latest pricing information from the Intermec public website at <http://www.intermec.com>. Go to the partner login button at the upper right corner of the home page. Please note that this site will require your GSS login and password. Access to the Partner GSS site can be requested by emailing GSSInfo@intermec.com.

This Price Guide includes all changes that have taken place or were announced through Product Alerts since the release of the last price guide dated January 5, 2007. These changes are noted in blue with an asterisk on the far right of each page.

Please direct any questions or comments to one of the following individuals.

Intermec Price Guide Announcement

ATTENTION

As in the previous price guides, the February publication contains an Addendum. Throughout the guide applicable RoHS certified items, such as accessories, will be **highlighted** to indicate the availability of non-RoHS inventory which should be ordered until further notice. **The ONLY exception for ordering RoHS products (when both non-RoHS and RoHS product models exist) is if the product is shipping to an EU country.**

By just clicking on these highlighted items, you will be transported to the Addendum which lists products not referenced in the price guide, but that are still available for order. For example, you may have a customer with a WA22, but do they have the mounting brackets? Or maybe they have a 2410 that needs a hand strap. Browse through the Addendum for other available accessories. **Stock levels are limited; please call customer service at 800-755-5505 to verify availability.**

741B RoHS vs. 741A

The 741B is a RoHS compliant unit. If this product is not shipping into Europe, it is unnecessary to purchase the 741B. We have 741A units available to purchase.

Please refer to the 741A product page for available configurations.

Regarding 7x1B products:

All OS language options will need to be re-packaged with the new IVA/PSM prior to being released to the market. **The production release schedule for each language has been updated and included in Product Alert 7x1 Series Portfolio Enhancements 1 released on January 18, 2007** (see posted Product Alert for details). Until the specified release dates, orders will be accepted but will not be scheduled to ship.

751B RoHS vs. 751A

The 751B is a RoHS compliant unit. If this product is not shipping into Europe, it is unnecessary to purchase the 751B. We have 751A units available to purchase.

Please refer to the 751A product page for available configurations.

Regarding 7x1B products:

All OS language options will need to be re-packaged with the new IVA/PSM prior to being released to the market. **The production release schedule for each language has been updated and included in Product Alert 7x1 Series Portfolio Enhancements 1 released on January 18, 2007** (see posted Product Alert for details). Until the specified release dates, orders will be accepted but will not be scheduled to ship.

Contact District Service Manager for quantity to support Silver Replacement.

761B RoHS vs. 761A

The 761B is a RoHS compliant unit. For customer sales orders not shipping into Europe, it is unnecessary to purchase the 761B. We have 761A units available to purchase.

Please refer to the 761A product page for available configurations.

Important: Please note that Customers and Partners are being allowed to order a maximum quantity of 5 units each of the 761B GPRS/EDGE model to aid in their development and certification processes prior to the full production release of the mobile computer.

Regarding 7x1B products:

All OS language options will need to be re-packaged with the new IVA/PSM prior to being released to the market. **The production release schedule for each language has been updated and included in Product Alert 7x1 Series Portfolio Enhancements 1 released on January 18, 2007** (see posted Product Alert for details). Until the specified release dates, orders will be accepted but will not be scheduled to ship.

Regarding CN2BB products:

All OS language options will need to be re-packaged with the new IVA/PSM prior to being released to the market. The production release schedule for each language has been outlined in the ***IVA/PSM Packages for Radio Performance Improvement for 7x1, 730B and CN2BB*** product alert, released 12/20/2006.

Until the specified release dates, orders will be accepted but will not be scheduled to ship.

CN2 Mobile Computer Accessories								
<i>For use with CN2A, CN2B and CN2G models.</i>								
<i>RoHS certified accessories identified within part number descriptions.</i>								
CN2 Docks & Accessories								
<u>Single Dock</u>								
<i>See General Accessories section for Power Supplies</i>								
225-696-001	CN2 Single USB Client Dock (Provides USB Client connectivity and charging of internal CN2 battery. Order USB client cable, power supply 851-089-001, and power cord separately.)	\$115		\$145			C	1
225-704-001	CN2 Single Modem/USB Dock, RoHS (Provides V.90 modem (RJ11), USB Client, USB Host connectivity and charging of CN2 internal battery. (CN2B will not support USB host connector) Order USB client cable, power supply 851-089-001 power cord and phone cord separately. Certified for Australia/NZ)	\$175		\$221			C	1
<u>Single Dock Cables</u>								
321-576-004	Cable, USB-A to USB-B, 2meter RoHS (Use with CN2 Docks for ActiveSync connection to PC USB port)	\$30		\$38			C	1
<u>Vehicle Dock</u>								
<i>See General Accessories section for Power Supplies</i>								
225-712-001	CN2 Vehicle Dock, RoHS (Provides one RS232 (DB9M) port. Mounting Kit and Power Kits available. See Vehicle Dock Accessories Section below for kit information.)	\$185		\$233			C	3
<u>Vehicle Dock Accessories</u>								
203-802-001	Vehicle Dock Installation Kit RoHS (Preferred Solution. For connection of Vehicle Dock 225-712-001 directly to vehicle battery. Includes power cables and cable mounting hardware. Order instructions 962-000-021 separately.)	\$75		\$95			C	3 *
203-803-001	Vehicle Dock Fuse Block Power Kit RoHS (Provides connection to vehicle fuse block. Requires Power Cable 226-109-003. Order instructions 962-040-004 separately.)	\$65		\$82			C	1
805-638-001	Mounting Kit, CK60/CN2/CN3 V-Dock RoHS (Allows mounting of Vehicle Dock 225-712-001 in route vehicle. Consists of one 4 3/4" adjustable pivot arm with two 1 1/2" stainless steel balls, steel offset plate, and assembly hardware. Due to wide range of possible applications, this kit does not include hardware for securing mount to vehicle.)	\$75		\$95			C	1
<u>Vehicle Dock Cables</u>								
226-109-003	Power Cable, Dock to Fuse Block RoHS (Use with Vehicle Dock Fuse Block Power Kit 203-414-001/203-803-001.)	\$30		\$38			C	1
CN2 General Accessories								
<u>Batteries</u>								
203-778-001	Battery, Spare, CN2, RoHS (Replacement/spare battery pack for CN2)	\$80		\$101			C	1
<u>External Battery Chargers</u>								
<i>See General Accessories section for Power Supplies</i>								
852-064-001	Battery Charger, Quad, CN2, RoHS (Order required power supply 851-082-003 separately)	\$310		\$391			C	1
<u>Holsters and Handles</u>								
074490	Holster, CN2 (Holds CN2 without serial adapter or dust cover. Includes integrated belt clip)	\$35		\$44			C	1
<u>Manuals</u>								
075464	Manual, CN2A Mobile Computer User (Users manual describing operation of the CN2A)	\$10		\$13			C	1
962-000-021	Manual, Vehicle Dock Installation (Instructions for using Install Kit 203-344-001/203-802-001.)	\$11		\$14			C	3
962-040-004	Manual, Vehicle Dock Fuse Block Install (Instructions for Vehicle Dock Fuse Block Power Kit 203-414-001/203-803-001.)	\$11		\$14			C	3
<u>Add-on Accessories</u>								
074247	Serial Adapter (Attaches securely to heel of the CN2 to provide the customer with a standard Male DB9 connector for serial communications. Does not provide power out.)	\$95		\$120			C	1
075400	Handstrap Assy,CN2 (Adjustable hand strap - supports dock and serial adapter)	\$25		\$32			C	1

6980 Network Manager

Usage: Network Manager for 4000 and 6000 Series Computers
 Base Configuration: 6980 - 1 Ethernet Port, 2 RS485, 2 RS232, 2 PC Card Slots
 Included in Box: 6980
 Required Accessories: Power Supply/AC Cord, Network Data Cable

6980 Network Manager Configuration

6980A8000000	6980 Network Manager (Replaces 255-218-980)	\$2,995		\$3,774		A	3

6980 Cables

RS232 Communication Cables

216-974-001	Cable, 6980 to ASCII Host, DB9F to DB25M	\$75		\$95		C	3
226-118-003	Cable, LAN, RS485, DB9M to DB25M	\$75		\$95		C	3
226-118-004	Cable, LAN RS485, DB15 to DB9, 10' (Single Dock to LAN)	\$75		\$95		C	3
226-118-008	Cable, LAN RS485, DB15 to DB9, 50'	\$140		\$176		C	3
226-465-001	Cable, 6980 to ASCII host, DB9F to DB25F	\$80		\$101		C	1
226-487-001	Cable, RS232, DB9 to DB9, NUL modem (6980 to ASCII host)	\$50		\$63		C	3
321-355-101	6980 Serial Intfc Cbl, DE9 to DB25, 6 Ft (6980 to Modem; recommended modem cable)	\$40		\$50		C	3

RS485 LAN Communication Cables

216-601-002	Cable, LAN RS 485, w/charge, 1.5' (For 4000 Series and PEN*KEY 62XX)	\$40		\$50		C	3
216-601-004	Cable, LAN RS 485, w/charge,6' (For 4000 Series and PEN*KEY 62XX)	\$45		\$57		C	3
216-601-005	Cable, LAN RS 485, w/charge,10' (For 4000 Series and PEN*KEY 62XX)	\$55		\$69		C	3
216-601-006	Cable, LAN RS 485, w/charge,20' (For 4000 Series and PEN*KEY 62XX)	\$65		\$82		C	3
216-601-009	Cable, LAN RS 485, w/charge,100' (For 4000 Series and PEN*KEY 62XX)	\$115		\$145		C	3
216-601-010	Cable, LAN RS 485, w/charge, 50' (For 4000 Series and PEN*KEY 62XX)	\$80		\$101		C	3
216-601-012	Cable, LAN RS 485, w/charge, 150' (For 4000 Series and PEN*KEY 62XX)	\$135		\$170		C	3
216-601-013	Cable, LAN RS 485, w/charge, 200' (For 4000 Series and PEN*KEY 62XX)	\$160		\$202		C	3
216-797-002	Cable, LAN RS 485, DB9 to DB25, 3' (Controller to Single Dock)	\$40		\$50		C	3
216-797-003	Cable, LAN RS 485, DB9 to DB25, 10' (Controller to Single Dock)	\$55		\$69		C	3
216-797-004	Cable, LAN RS 485, DB9 to DB25, 40' (Controller to Single Dock)	\$75		\$95		C	3
216-797-007	Cable, LAN RS 485, DB9 to DB25, 100' (Controller to Single Dock)	\$100		\$126		C	3
226-103-002	Cable, LAN RS 485, w/o charge, 1.5' (For PEN*KEY 6000 Series & 600)	\$40		\$50		C	3
226-103-004	Cable, LAN RS485, w/o charge, 6' (For PEN*KEY 6000 Series & 600)	\$45		\$57		C	3
226-103-005	Cable, LAN RS485, w/o charge, 10' (For PEN*KEY 6000 Series & 600)	\$55		\$69		C	3
226-103-006	Cable, LAN RS485, w/o charge, 20' (For PEN*KEY 6000 Series & 600)	\$60		\$76		C	3
226-103-009	Cable, LAN RS485, w/o charge, 50' (For PEN*KEY 6000 Series & 600)	\$80		\$101		C	3
226-103-014	Cable, LAN RS485, w/o charge, 100' (For PEN*KEY 6000 Series & 600)	\$115		\$145		C	3
226-103-019	Cable, LAN RS485, w/o charge, 200' (For PEN*KEY 6000 Series & 600)	\$160		\$202		C	3
226-103-028	Cable, LAN RS485, w/o charge, 500' (For PEN*KEY 6000 Series & 600)	\$395		\$498		C	3
226-103-038	Cable, LAN RS485, w/o charge, 1000' (For PEN*KEY 6000 Series & 600)	\$620		\$781		C	3

6920 Communication Server

Usage: The 6920 Communications Server is a store and forward communications software package to manage the passage of data between mobile computers and the server host.

Included in Box: Users Guide, Quick Start Card and Technical Reference Guide.

Required Accessories: SW Maintenance

6920 Communication Servers

Note: Windows NT Workstation is limited to 10 ports by Microsoft's Licensing Agreement.

215-789-001	Kit, 6920 1 Line Server, 6920LC1, CD-ROM (For use with Windows95, Windows NT4.0 Workstation or Windows NT4.0 Server. Requires 459-001-001 @\$225.)	\$1,495		\$1,884		A	3
215-790-001	Kit, 6920 2 Line Server, 6920LC2, CD-ROM (For use with Windows95, Windows NT4.0 Workstation or Windows NT4.0 Server. Requires 459-001-003 @\$375.)	\$2,495		\$3,144		A	3
215-791-001	Kit, 6920 4 Line Server, 6920LC4, CD-ROM (For use with Windows NT4.0 Workstation or Windows NT4.0 Server only. Requires 459-001-004 @\$525.)	\$3,495		\$4,404		A	3
215-792-001	Kit, 6920 8 Line Server, 6920LC8, CD-ROM (For use with Windows NT4.0 Workstation or Windows NT4.0 Server only. Requires 459-001-008 @\$825.)	\$5,495		\$6,924		A	3
215-794-001	Kit, 6920 16 Line Server, 6920LC16, CD (For use with Windows NT4.0 Server only. Requires 459-001-016 @ \$1100.)	\$7,495		\$9,444		A	3
215-795-001	Kit, 6920 32 Line Server, 6920LC32, CD (For use with Windows NT4.0 Server only. Requires 459-001-032 @ \$2100.)	\$14,495		\$18,264		A	3

Developers Kits and Upgrades

215-910-001	6920UPGD, Upgrade Kit, 6920 (Available to participants of the SW Maintenance Program. Requires original system disks.)	\$0		\$0		X	3
215-911-001	Kit, 6920 Developers, 6920DEV, CD-ROM (Available to developers for lab and development systems. Kit includes one 6920 2-line server, CD ROM and diskette. Kit is no charge; requires 459-001-099 @ \$750.)	\$0		\$0		X	3

6920 SW Maintenance

SW Maintenance is required for each 6920 Network Server ordered. Hot Backup Maintenance is also available.

459-001-001	SW MAINT, 6920, ANNUAL, 1 LINE SRVR	\$225		\$284		C	3

Intermec Gateway & G4000 Application Server

User Guide Included

G4000C hardware provides Windows Server 2003 operating system.

Standard system now includes 0 Intermec Gateway and dcBrowser Gateway client licenses. Both will allow one device to connect for demo or development purposes. Must order "Intermec Gateway" client part # 072944 or "dcBrowser client" part #072013, and must define quantity. Standard system includes one 10/100 Mbps Ethernet card, no other cards are available

Maximum terminal sessions are 300 total

ATTENTION G4000 Rev A & B: If you want to run above 127 sessions, you will need to upgrade the memory in yo G4000 A or B.

Please contact Intermec Service for details.

All systems come with 110 VAC power cord. System auto switches to 220 VAC

Order 220 VAC cord from Accessories Section or provide locally

Rev C hardware includes: CPU, 2U rack mountable industrial case, on board Ethernet and Video, 512MB Memory

Release software version 1.5

Intermec Gateway & G4000 Server Appliance

G4000C100000	G4000C Server (Must order Intermec Gateway clients or dcBrowser clients from Software Licenses section below) [1,2]	\$4,150		\$5,229		C	3

1.* dcBrowser™ Client Software License must be purchased separately to allow more than one client terminal at a time.

Quantity discounts are available as follows: 1 - 24 licenses \$275 per client 25 - 74 licenses \$253 per client 75 - 149 licenses \$231 per client 150 - 499 licenses \$209 per client 500 - 999 licenses \$187 per client 1000+ licenses \$165 per client 2.* Intermec Gateway Client Software License must be purchased separately to allow more than one client terminal at a time.

Quantity discounts are available as follows: 1 - 30 licenses \$75 per client 31 - 62 licenses \$69 per client 63 - 94 licenses \$63 per client 95 - 127 licenses \$57 per client

OEM Printer Kit based on EasyCoder PX4i

Resolution: 203/300 dpi (8/12 dots/mm). Max. 300 mm/s (12"/s) print speed in Thermal Transfer mode.
Description: These standard OEM printer kits are assembled into modular parts and ideal for integration with Print Apply systems and with other devices where a high performance print unit is required.
More customized solutions can be achieved with these kits than a standard Print & Apply print engine like those supplied by competitors.
Conditions: - Minimum order quantity and delivery quantity is 4 Base Kits with or without corresponding Option Kits
Delivery lead time is the same as for complete EasyCoder PX4i printers. Confirmed at time of order.
The lowest acceptable order level consists of one of the Base Kits below. (e.g. 4 Base Kit #1 or 4 Base Kit#2 and no Option Kits)
- A particular Option kit can only be ordered together with the same number of Base Kits.
(e.g. 4 Base Kit #1 and 4 Option Kit #1 or 10 Base Kits #2 plus 10 Option Kits #1 and 10 Option Kits #2 etc.)
- Warranty conditions for Base kits and Option Kits are the same as for printer spare parts (three months).
- the customer is responsible for complying to all regulations and safety approvals for the finished printer unit.
Intermec does not guarantee that the individual Kits comply to standard regulations or safety approvals.
- Intermec cannot guarantee the function of the finished system.
- Intermec reserves the right to modify individual parts in the kit if they are modified in the standard EasyCoder PX printer.
- Intermec can supply, free of charge, a mechanical drawing of the mid section plate to facilitate integration with the customers own designed mid section plate.
Fasteners (screws) are not included in the kits. Can be ordered separately.

<u>Base Kits</u>							
1-PX4653-000	PRINT KIT PX4 (203DPI) BASE 1 (Print Module, 200 dpi, PCB, & Power Supply. See Note 1)	NEW	\$2,212		\$2,787	03/01/07	M 1

1-PX4654-030	OPTION KIT 4, PX4 (Mid plate, Bottom Plate and Rear-plate. See Note 6.)	NEW	\$154		\$194	03/01/07	M 1

Note 1: Includes complete print module with print head, motor and drive belts, complete PCB with latest firmware, 16MB DRAM+4MB Flash memories, RS232 and USB interfaces and a complete Power supply unit with auto range (115V-240VAC). All necessary cables between modules are included.
Order additional interface options and accessories separately, please see EasyCoder PX4i price page.

Note 2: Includes complete print module with print head, motor and drive belts, complete PCB with latest firmware, 16MB DRAM+4MB Flash memories, RS232 and USB interfaces and a complete Power supply unit with auto range (115V-240VAC). A complete Keyboard/Display unit with a loose keyboard slide. All necessary cables between modules are included. Order additional interface options and accessories separately, please see EasyCoder PX4i price page.
Note 3: Includes Ribbon Unwind & Rewind units with drive belt and ribbon end sensor kit.
Note 4: Includes Label roll holder unit, slack absorber and a 3" adapter for label rolls with a 3" core.
Note 5: Includes Internal rewind unit for rewinding of backing paper/liner with drive belt and motor.
Note 6: Includes Mid plate, Base plate and Rear plate.

OEM Printer Kit based on EasyCoder PX6i

OEM Printer Kit based on EasyCoder PX6i

Resolution: 203/300 dpi (8/12 dots/mm). Max. 225 mm/s (9"/s) print speed in Thermal Transfer mode.

Description: These standard OEM printer kits are assembled into modular parts and ideal for integration with Print Apply systems and with other devices

where a high performance print unit is required.

A more customised solution can be achieved with these kits than with a standard Print & Apply print engine supplied by competitors.

Conditions: - Minimum order quantity and delivery quantity is 4 Base Kits with or without corresponding Option Kits

- Delivery lead time is the same as for complete EasyCoder PX6i printers. Confirmed at time of order.

- The lowest acceptable order level consists of one of the Base Kits below. (e.g. 4 Base Kit #1 or 4 Base Kit#2 and no Option Kits)

- A particular Option kit can only be ordered together with the same number of Base Kits.

(e.g. 4 Base Kit #1 and 4 Option Kit #1 or 10 Base Kits #2 plus 10 Option Kits #1 and 10 Option Kits #2 etc.)

- Warranty conditions for Base kits and Option Kits are the same as for printer spare parts (three months).

- The customer is responsible for complying to all regulations and safety approvals for the finished printer unit.

Intermec does not guarantee that the individual Kits comply to standard regulations or safety approvals.

- Intermec cannot guarantee the function of the finished system.

- Intermec reserves the right to modify individual parts in the kit if they are modified in the standard EasyCoder PXi printer.

- Intermec can supply, free of charge, a mechanical drawing of the mid section plate to facilitate integration with the customers own designed mid section plate.

Fasteners (screws) are not included in the kits. Can be ordered separately.

	<u>Base Kits</u>

IP4B Portable Reader

Usage: Snap-on handle to add UHF RFID read and write capability to Intermec Model 74x/75x/76x Color Mobile Computers. Can ONLY be used with 700 Series Color Computers with Scanner option. Can NOT be used with Model 700 Mono or Model 730 Color mobile computers. Initial air interface is reconfigurable for mixed tag populations.

Configuration options: Initial tag air interface (may be field reconfigured), Antenna type, Regulatory/certification
Included in Box: Reader, Getting Started manual, one battery and test tag
Required Accessories: Charger, power supply and power cord
Optional Accessories: Additional batteries

RFIDDeploy Services

The pricing below is associated with the performance of RFIDDeploy services, as specified in the respective Statements of Work. In addition to the price of the services, client is responsible for all travel and reasonable out of pocket expenses incurred in the performance of RFIDDeploy Services

Process Analysis

- Define process flow and success criteria
- Determine number, type and location for RFID read/write equipment and peripheral devices associated with Touch Points
- Consult on optimal configurations
- Documentation

XPA1	RFIDDeploy Process Analysis	\$6,490		\$8,177		O	3
XPA2	RFIDDeploy Process Analysis Add Day	\$2,995		\$3,774		O	3

Site Analysis

- Examine, characterize and document the on-site characteristics of the Client facility
- Determine the optimal mounting methods for identified hardware
- Evaluate the radio frequency environment
- Documentation

XSA1	RFIDDeploy Site Analysis	\$4,490		\$5,657		O	3
XSA2	RFIDDeploy Site Analysis Add Day	\$1,995		\$2,514		O	3

Site Installation

- Mount specified hardware according to identified methods
- Perform Operational Testing against success criteria from Process Analysis
- Provide hardware orientation for end-user staff
- Documentation

XSI1	RFIDDeploy Site Installation	\$2,495		\$3,144		O	3
XSI2	RFIDDeploy Site Installation Add Day	\$1,995		\$2,514		O	3

Software Services

For pricing details or to schedule an engagement for software services, contact:
Scott Berry at scott.berry@intermec.com or (319) 369-3184

Premier Software Support Services

Premier Software Support (PSS) Services provide a higher level of software support than provided by standard software maintenance. PSS Services provide a designated technical contact and priority access to Intermec technical resources for expedited issue resolution, fixes and minor software enhancements. PSS Services are purchased in place of standard software maintenance.

Requirements Analysis – Field Service & Delivery

Requirements Analysis provides an in-depth review of client requirements and delivers recommendations to speed implementation of a mobile solution, enabling clients to meet business objectives for field service and delivery functions. Requirements analysis may be used to gauge the fit of packaged mobile solutions like ArciTech or i-gistics, or to identify requirements for development of a solution customized to your specific needs.

SmartSystems Foundation

Intermec mobile computers and devices include innovative technologies and features for the enterprise. Intermec SmartSystems products offer a consistent way to access and manage the intelligent features found across the entire line of Intermec equipment. This makes it easy to deploy, manage and grow your Intermec system whether deploying RFID readers or configuring mobile computers. SmartSystems Foundation is a basic device management system provided with Intermec equipment for no additional charge. SmartSystems Foundation supports common tasks involved in managing Intermec equipment including deploying new devices, supporting devices in the field and replacing damaged devices.

SmartSystems Server

The Foundation Server is a Basic Management Console/Server that provides a default method to configure & manage Intermec equipment. Requires: Windows XP/Windows Server 2003 and SmartSystems device(s).

□ The SmartSystems Foundation Server is available for download at no charge at www.intermec.com/SmartSystems, select "Downloads". For those with limited internet access, the Server is also available on CD-ROM for a fee. □ Licenses for advanced features must be purchased separately. □ Please note that new releases are available for download 4-6 weeks before they are available on CD-ROM. □ AutoDeploy licenses must be purchased separately.

235-169-001	CD-ROM, SmartSystems Foundation, Server	\$50		\$63		M	3

SmartSystems AutoDeploy

AutoDeploy is an optional feature that distributes software or OS updates to a group of like Intermec devices. Without this feature, the Foundation Server distributes software to one device at a time. Introductory pricing for AutoDeploy is available in packs of licenses for 15, 50 or 200 devices. AutoDeploy is recommended for use with groups of 200 devices or less.

□ License purchase provides a product key to activate the AutoDeploy feature in the Foundation Server. One key is delivered for each AutoDeploy line item included in the sales order.

Wavelink Emulator

Wavelink TE software provides a comprehensive solution for accessing and managing connections to applications resident on host systems using 3270, 5250, VT (100, 110, 220, & 320) and HP emulation. Maintenance is required and must match the Emulation Client purchased. (For example, if Wavelink TE 2-in-1 is purchased (474-043-732) the maintenance would be CK30 2-IN-1 SW Maint (474-043-633). For factory loaded configurations order Factory (FAC) maintenance. (For example, when ordering CN30 order 450007-001 - CN30, Fac YR1 SW Maintenance.)

TE2000 Software

Terminal Emulation client that incorporates the industry's best features for VT/ANSI, 5250, and 3270 emulation. TE2000 provides a common client across device architectures, and a TE client designed for handheld computers. TE 2000 supports, and the CD includes clients for, the following devices: 700 Series Mobile Computer, CK30, CK3 CV60, CK61 (both Windows Mobile and WinCE 5.0), CV30 and CN30 computers.

Software

235-104-001	TE2000 Bundle (For all supported hardware products. Order 1 client license per device. Ships 1 CD per order. Customers should also order maintenance PN 459-003-001 to receive technical support and maintenance releases.)	\$165		\$208		M	3
235-167-001	TE2000 Upgrade Client License CD (For 700 series, CK30, CK31, and CV60 only. Order 1 upgrade per client license. Requires existing license to TE2000 for each device. Ships 1 CD per order. Customers should also order maintenance PN 459-003-001 to receive technical support and future updates.)	\$80		\$101		M	3
235-168-001	TE2000 Update CD (Required for existing software maintenance customers only. Must provide maintenance identification number at time of order. Available for current TE2000 Software maintenance subscribers only.)	\$0		\$0		M	3

Maintenance

459-003-001	SW Maint, TE2000, Annual (Customers must be on current version of TE2000 to subscribe to maintenance. Must purchase 1 maintenance contract per TE2000 client license. Entitles customer to technical support and all maintenance releases during contract period.)	\$30		\$38		F	3

TE2000/Speech Software

TE2000/Speech provides integrated speech recognition for the Intermec 751 to enable hands-free data collection. Designed for manufacturers, distributors and retailers, the solution increases productivity by enabling hands-free operation without sacrificing the accuracy provided by scanning. Unlike traditional voice solutions, Intermec's solution is affordable and protects investment in existing terminal emulation solutions.

□ Purchase a TE2000 Speech Bundle AND a license for each mobile computer. Existing TE2000 Users must also purchase both parts. No update pricing available for existing users. □ System Requirements: Intermec 751 Mobile Computer, 128MB, 64MB SD Card and 751 Speech Accessories □

Syvox Speech

SyVox speech solutions optimize the performance of mobile workers by enabling speech-directed data collection for hands free interaction with Intermec devices.

Choose the SyVox Logistics Server for a complete off-the-shelf solution for speech-directed picking. Or choose the SyVox IDK to build your own speech application.

SyVox Speech Client

The SyVox speech client enables a user to interact with an Intermec device using speech commands, and enables an application to convert text to speech. The client may be used with the SyVox Logistics Server OR with the SyVox IDK to provide a complete speech solution.

One SyVox speech client license is required for each Intermec device on which the client software will run.

□

System Requirements: Intermec 750 Mobile Computer, Windows Mobile 2003, Minimum 64MB Secure Digital card, □ and Speech Accessories. □ □

474-045-501	SW/LIC Sy Vox Speech Client (Requires Annual Maintenance 472-045-501)	\$475		\$599		C	3
474-045-508	Maint SyVox Speech Client	\$85		\$107		X	6

SyVox Logistics Server

The SyVox Logistics Server provides a standard off the shelf speech solution for picking, cycle count, and other warehouse functions. It is well suited for environments that require high velocity picking, working with small pieces, moving large hard-to-handle items or cold storage. The SyVox Logistics Server is an ideal solution for picking applications in retail, food and beverage, and automotive distribution centers.

□

Purchase one Server license for each Server on which SyVox Logistics is installed. In a clustered environment, purchase one

□

license for each cluster member. Purchase one seat license for each concurrent user. □ □ System Requirements: □ - Client-supplied server hardware with the following minimum requirements: Windows 2000 or Windows XP, Minimum 256MB RAM, Minimum 20MB Disk Space, Minimum processor 500 MHz PIII, at least RAID 1 □ - 802.11 Wireless Network □ - SyVox Speech Client" □ □

474-045-502	SW/LIC SyVox Logistics Seat (Requires Annual Maintenance 472-045-502)	\$1,195		\$1,506		C	3
474-045-504	SW/LIC SyVox Logistics Server (Requires Annual Maintenance 472-045-504)	\$5,995		\$7,554		C	3

iBrowse

iBrowse is a locked-down web browser developed for Intermec Pocket PC, Windows Mobile and Windows CE devices. The browser was created for customers who wish to utilize web-based applications but don't want to give users complete access to the World Wide Web. Intermec iBrowse restricts user access to certain applications, we sites and other parts of the Pocket PC operating system. Users can only access authorized links provided on the "Home" page. With iBrowse, there is more control over program flow to create directed applications and remove a confusion from the end user.

Note: iBrowse now supports 700 Series, CV60, CN2A, CN2B, CN30, CK30, CK31 and CK60. Order 1 license for each mobile computer running iBrowse. Only 1 CD will be sent for each order, and contains iBrowse for all platforms.

WLAN Controller

Cisco® wireless LAN controllers are ideal for enterprise and service provider wireless LAN deployments and provide system-wide wireless LAN functions, such as security policies, intrusion prevention, RF management, quality of service (QoS), and mobility. They work in conjunction with Cisco lightweight access points and Cisco Wireless Control System (WCS) Software to support business-critical wireless applications

AIR-WLC2006-K9	2000 Series WLAN Cntrlr for up to 6 APs	\$3,250		\$4,095			B 3
AIR-WLC4402-12-K9	4400 WLAN Cntrlr up to 12 Lightweight APs	\$9,995		\$12,594			B 3

WLAN Management Software

Cisco Wireless Control System (WCS) provides a powerful foundation that allows IT managers to design, control, and monitor enterprise wireless networks from a centralized location, simplifying operations and reducing the total cost of ownership. The WCS includes tools for wireless LAN planning and design, RF management, location tracking, Intrusion Prevention System (IPS), and wireless LAN systems configuration, monitoring, and management.

WAXX IC Migration Software for Mixed Cisco – Intermec WLAN

Intermec is providing a migration path for existing wireless customers operating on the WA21 and WA22 access points to transition to mixed Cisco – Intermec AP environment. For Intermec customers wanting to mix Cisco autonomous access points with Intermec APs, the part number below provides a special software image for the WA21 and WA22 APs. This software image will enable mixed Cisco – Intermec Access Point deployment enabling common security and Layer 2 Roaming across Intermec and Cisco APs. The software can be placed on all the WA21 and WA22 in your WLAN. Also included with the software is an Integration Guide on how to optimally configure your WLAN for mixed deployment.

THE PURCHASE OF THIS SOFTWARE REQUIRES THE MINIMUM PURCHASE OF ONE CISCO AP.
THE CISCO AP MUST BE ON THE PURCHASE ORDER.

IC Migration Software for Mixed Cisco – Intermec WLAN

235-177-001	Kit, Cisco IC AP Migration CD (CD with IC Migration Software for use with WA21 and WA22 & Integration Guide)	\$10		\$13			M 3

Global Services

Site Survey and Installation Zone Charge Schedule

Site Survey and Installation charges apply to customer site locations within 75 miles of the nearest major city zip code. Customer locations beyond 75 miles are subject to the following Zone Charges. Zone Charges are to cover travel. For distances over 500 miles, please call 1-800-755-5505 option 4.

Zone	Proximity (Miles)	Zone Charge
A	0-75	No Charge
B	76-150	\$395
C	151-250	\$795
D	251-500	\$1,495
E	500+	QUOTE

Note: Above prices are only for U.S. based services. Zone Charges are not discountable. All dollar amounts are in U.S. Dollars. Prices are subject to change without notice.

Notice to Intermec Sales and Partners

Thanks to your valuable input, we have made several changes to Medallion pricing and how the pricing is published, all designed to help you in your selling efforts. Here is a summary of those changes:

1. SKUs for all Service Plans
2. Service model descriptions re-written to include information about the Plan Type coverage
3. Pricing for the vast majority of the Service Plans has been reduced
4. "Day One" and "Multi-year" discounts have been eliminated
5. In lieu of a "Day One" discount, we have instituted lower priced SKUs for those Plans purchased within 30 days of the purchase of new hardware
6. Set list pricing for 3-year plans
7. Elimination of "Zone Adders". In the USA, we will no longer offer on site contracts beyond 150 miles from the nearest authorized field service office. The Medallion Onsite Distance Calculator (GSS > Service & Support > Programs > Medallion Services > Onsite Distance Calculator) will now simply return "Yes" or "No" as to whether an on site plan is available, depending on the zip code information entered.
8. Current, most-popular plan pricing is now located within the Price Guide, adjacent to the hardware items which the plans are intended to cover.
9. All other pricing, including for hardware that has gone End of Build, is located on the GSS site at: GSS > Service & Support > Programs > Medallion Services > Medallion Pricing.
10. Recommended plans (☼) and Medallion-Eligible models (bold face font for Service Model) can be more easily identified.

Genesta's innovative RFID hardware, software and accessories provide the basis for implementing RFID in supply chain and manufacturing. The Peripheral Management Device (PMD) combines RFID readers with peripheral control of lights, message boards and presence detectors. The Peripheral Client and Capture and Response software is used to automate the RFID collection process and connect to host systems without custom programming.

Part Number	Description	US List	L/T (Days)	Disc Code
PROCART-DC	The ProCart DC is a rugged wireless mobile printing cart, which includes an advanced power module. The power module provides AC power on three standard 110VAC outlets. The cart is designed to support large capacity Intermec printers in on-site portable applications. The Advanced Power module is maintenance free, UL approved and easily recharged.	\$ 3,204.00	28	N
PROCART-SDC	The ProCart - SDC is a small footprint wireless mobile printing cart that includes a 5 wheel base, advanced power module, and a work surface. The power module provides AC power on three standard 110VAC outlets. The cart is designed to support medium and high capacity Intermec printers in on-site portable applications. The Advanced Power Module is maintenance free, UL approved and easily recharged. The work surface can be used to mount a VMU, Tablet, or HHT dock.	\$ 3,060.00	28	N
PROCART-SRT	The ProCart - SRT is a small footprint powered mobile cart designed for wireless retail applications. It has a five wheel base, advanced power module, a work surface, and a printer shelf. The printer shelf is designed to hold one or two small desktop printers. This retail cart also features a lower surface for a signage printer or high capacity barcode printer. The Advanced Power Module is maintenance free, UL approved and easily recharged.	\$ 3,180.00	28	N
UPG-PM	Upgrade option for extended capacity power module.	\$ 240.00	28	N

Silex Technology America, Inc

118383www.silexamerica.com/us**Contact:** Shizuko Thompson**Phone:** (801) 748-1199 x1009**E-mail:** Thompson@silexamerica.com**Fax:** (801) 748-0730**Address:** 157 W 7065 S, Salt Lake City, UT 84047-3717

Silex Technology America has teamed with The TROY Group, Inc. to provide a family of high-performance Print Servers that offer Intermec customers flexible and extensive network connectivity options. Our family of Print Servers includes both Wireless and Wired connectivity products. The Printer Port Interface can be Parallel, Serial or USB. The network interface can be 802.11, Bluetooth, 10base/100baseTX, 10baseT, 10base2/10baseT, Fiber, Infrared or Token Ring.

The Silex500 serial servers include enterprise-level security features including access control lists, complete protocol and application enable/disable control, read and write configuration passwords, and SNMP community name configuration. The wireless models also add 802.1x Extensible Authentication Protocol (EAP) with Tunnelled Transport Layer Security (TTLS) or Lightweight Extensible Authentication Protocol (LEAP); Protected Extensible Authentication Protocol (PEAP); Open System or Shared Key support with Wired Equivalent Privacy (WEP) encoding; WPA (Wi-Fi Protected Access) Personal (WPA-PSK) and Enterprise modes, which utilize improved encryption via the Temporal Key Integrity Protocol (TKIP); and WPA2, which adds Advanced Encryption Standard (AES).

Given the dynamic nature of today's enterprise applications, and the growing need for RFID, you want a solution that works, with a company you can trust. Companies that demand maximum uptime and unsurpassed service choose Loftware's Enterprise Solutions for their global marking needs. Loftware® is an 18 year pioneer in barcode and label printing solutions, and continues to provide advanced technology solutions, including RFID...

NEW POLICY

In order to participate in a product migration, customers must first verify their Serial Number and Key String. If the Serial Number is not under support, the customer must first purchase an upgrade for that license, to the most current version of the product, and then also purchase support, for the migration product

PRICE INCREASE REMINDER

Loftware formally announced that we had an increase to our software and annual support that went into effect April 1, 2005.

NiceLabel Labeling Software

NiceLabel and Pocket NiceLabel is a complete family of bar code labeling software products for basic desktop labeling, automated enterprise wide connectivity for label printing as well as mobile and wireless label printing. Pocket NiceLabel is a unique solution for building and implementing solutions for label printing on wireless Pocket PC mobile devices such as the Intermec 700. Labels can be printed from the Pocket PC via a COM port, IR port, direct TCP/IP to the printer via Wi-Fi or Bluetooth wireless. Pocket NiceLabel is an ActiveX component that allows mobile software applications to easily "bolt-on" label printing without writing printer code.

Part Number	Description	US List	L / T (Days)	Disc Code
NLE	NiceLabel Express Entry-level labeling software	\$ 294.00	3	N
NLP	Nicelabel Pro A full-featured software designed for professional label design and printing, including complete database support and integration options.	\$ 594.00	3	N

BarTender, by Seagull Scientific, is the leading "true" Windows bar code label software. It provides full control over the label, bar codes, text, symbols and graphics and has powerful capabilities for reading data from other software. ActiveX Automation allows other programs to control BarTender as if they are doing the printing. Comes with true Windows printer drivers for the entire Intermec EasyCoder product line. Available in over 20 languages. Free, full-working downloads at www.seagullscientific.com.

Product Access Policy

To ensure Intermec meets its goal of “**delivering data collection, mobile computing and RFID solutions that result in highly satisfied customers**”, the company has implemented policies to ensure the sales and channel strategies complement the complexity and support requirements for each class of products. All Intermec products are classified by access code in the Intermec Price Guide (document 609305). Reseller requirements vary by access code and product classification.

- **Access Code 1 Basic Devices** – Available to all resellers in compliance with Intermec's Advertised Pricing Policy.
- **Access Code 2 General System (no longer in use)**
- **Access Code 3 Advanced System** – Available to Premier and Accredited Honours Partners, and Program Member Honours Partners on approval; All Honours Partners must be in compliance with Intermec's Advertised Pricing Policy and Global Sales & Service Policy to resell Advanced System Products.
- **Access Code 4 Specialty RFID Solution** – Available to Partners that have completed and are current with the RFID Authorization Training Program.
- **Access Code 6 EasyADC and SmartADC Systems** – Available to Honours Partners who have received EasyADC or SmartADC certification.
