SERVICE

Best Practices - Preparing for Service Retirement

- **Plan** – Proactively plan a technology refresh. The earlier you plan, the easier it is to protect your current assets, budget for the future, and adopt new technology.
- **Protect** – Purchase a service contract that will protect your mission critical assets and your bottom line by providing predictable repair costs, preventative maintenance, and updates to software and firmware.
- **Extend** – Extend your current contract and manage your assets to the end of their useful life.

SERVICE TIMELINE

| ANNOUNCEMENT | TIMELINE | DATE |
|---------------------------------------|---|-------------------|
| Last Day One Contract | Honeywell will not accept Day1 Full Comprehensive Contracts after this date | May 31, 2018 |
| Last 5 Year Contract | Honeywell will not accept 5 year contract orders after this date | Immediately |
| Last Service Renewal | Honeywell will not accept service contract orders after this date | July 1, 2020 |
| End of Hardware Service | Honeywell will not offer service product under contract, sell spare parts, or provide rentals or hardware maintenance after this date | December 31, 2021 |
| End of Software and Technical Support | Honeywell will not offer technical support after this date | December 31, 2021 |

SERVICE COMMITMENT

Honeywell will provide technical support, software updates, and hardware maintenance to the best of its ability on discontinued hardware and software products throughout the life of existing warranties and service contracts. Ability to service and support units may be disrupted due to component obsolescence beyond Honeywell's control.
