

## SURVIVOR<sup>®</sup> LV-Series Livestock Ring Scale

### DESCRIPTION

LV-Series livestock ring scale

Critical to the livestock industry is a method of determining weights of animals as they are bought and sold. The LV-Series livestock ring scale provides 50,000 lb full-scale capacity and is NTEP certified to ensure accuracy and reliability. On-site frame assembly makes installation incredibly easy, and concrete decks up to 8" thick guarantee durability.

Designed to fit within the existing ring area of a livestock barn, the LV-Series is installed in three simple phases. The subcomponents are bolted together, a concrete deck is poured, and then a calibration is performed. In addition, top access to load cells eases installation and any future service requirements.

### Applications

- Livestock barns
- Stockyards
- Ranches and farms

### Standard Features

- 50,000 lb capacity (x 5 lb); 70,000 lb capacity (x 10 lb)
- Platform lengths from 13.5' to 34.2'
- Platform widths from 13.3' to 22.8'

### Options/Accessories

- Racks and gates

Consult factory for additional options and accessories

*Due to the unique size and design requirements of ring scales, we will construct a scale to your specifications.*

## SURVIVOR<sup>®</sup> AG-Series Livestock/Agriculture Utility Scale

### DESCRIPTION

AG-Series livestock/agriculture utility scale

Ideal for weighing utility-type trucks and trailers, Rice Lake Weighing Systems' new medium-capacity platform scale is the perfect choice when a full-size truckscale is too large or cost prohibitive for small to medium weighing operations.

With 30,000 lb full-scale capacity, the AG utility scale excels in operations such as livestock, vehicle or the weighing of agriculture trailers such as anhydrous ammonia tanks.

### Applications

- Feed mills and cooperatives
- Livestock barns

### Standard Features

- 30,000 lb full-scale capacity
- 20,000 lb concentrated load capacity (CLC)
- Lengths up to 35'
- Widths up to 12'

### Options/Accessories

Consult factory for additional options and accessories

*Due to the unique size and design requirements of ring scales, we will construct a scale to your specifications.*

**CONSULT FACTORY FOR COMPLETE SPECIFICATIONS AND PRICE QUOTATIONS, AND TO DISCUSS APPLICATION REQUIREMENTS.**

**LOAD CELL CAPACITY:**

50,000 lb

**CONCENTRATED LOAD CAPACITY:**

50,000 lb

**FULL SCALE CAPACITY:**

50,000 lb capacity (x 5 lb); 70,000 lb capacity (x 10 lb)

**APPROVALS:**

NTEP certified CC#98-010

**WARRANTY:**

Five year warranty on weighbridge

Two year warranty on electronics
