RICE LAKE WEIGHING SYSTEMS
Industrial Solutions on a Global Scale®

Why TransAct®...

From installation and setup, to everyday transactions, data management has never been easier! TransAct was designed to make new scale management installations or upgrades virtually effortless. Even operators with little or no computer experience are immediately comfortable with its intuitive, graphically-enhanced user interface. Don't let its simplicity fool you. TransAct acts as a powerful central database, seamlessly integrating your entire operation with transaction information. From the scale, to the office, to the customer, all relevant data is quickly and accurately generated for each step in your operation.

Easy!

- Requires little computer experience... graphic environment shows you the way!
- Integrates with virtually any scale
- Windows® 3.1, Windows® 95 and NT compatible
