Model	Capacity	Model	Capacity	Model_	Capacity	Model	Capacity
5261 5262	200 lbs. 400 lbs.		800 lbs.		150 lbs.		600 lbs

Application: Weighing commodities in general trade, warehouse and industrial

weighing.

'nditions: As prescribed in P.C. 6894.

Description: These devices are portable platform scales equipped with 360° swivel non-locking "FIOAXIAL" dial heads. The scales are equipped with

notched tare beams which may be enclosed or permanently exposed. The under deck leverage system consists of two V type levers, one having an extension arm for transfer of power to the connection rod, suspended from parallel links. The nose iron is not adjustable but the corner pivots and bearings may be adjusted. The lower end of the connecting rod supports counter balance weights which are locked in position. Pivots are rectangular with round shanks fitted in

reamed holes.

The dial casing is sheet steel, the pillar and tare beam casing cast

Director,

aluminum, the deck and base are cast iron.

Testing: The standard tests for a platform scale should apply.
