## NOTICE OF APPROVAL AVIS D'APPROBATION

S.WA-X150

Ottawa, Jan. 14, 1980

## COMBINATION VEHICLE WEIGHING SCALE

INSTALLER:

Pacific Industrial Scale Co. Ltd.

.12560 Vickers Way Richmond, B.C.

TYPE OF DEVICE: Combination Weigh Scale, consisting of the following:

- 1) 60 ft. x 10 ft. motor truck scale, being an existing Howe Richardson lever scale provisioned for digital readout by the installation of a strain gauge load cell in the steel-yard.
- 2) 20 ft. x 20 ft. log loader scale, utilizing two pairs of Fairbanks load levers of new construction, the summed output of each lever pair being applied to a separate load cell. This scale is installed at one end of the 60 ft. motor truck scale, thus providing an effective motor truck platform length of 80 feet.
- 3) Fairbanks Model 90-7300 digital indicator to which is fed the output of the three load cells used on the complete scale combination.

## MODEL NUMBERS & CAPACITIES:

Motor Truck Scale: Howe Richardson Model 10460 (S.WA-578).

Capacity: 100 tons (or metric equivalent) both when used alone or when used as an 80 ft. scale in unison with the log loader scale.

Log Loader Scale: Fairbanks Model 13-3032-SP/80/150.

Capacity: 150 tons or metric equivalent.

## SPECIAL CONDITIONS:

1. This listing is applicable to one (1) installation only, located at:

North Central Plywoods Ltd. B.C. Rail Industrial Site, Prince George, B.C.

2. The installation shall be equipped with a suitable barrier to prevent entry of the log loader vehicle to the motor truck scale platform.

FILE: G6922-P439

CONDITIONS OF APPROVAL: Approval is granted under the Weights and Measures Act, S.C. 1970-71-72, Chapter 36, and the Weights and Measures Regulations P.C. 1974-1461 of June 27, 1974 for use in Canada under the general conditions of the said Regulations, and under any special conditions listed above.

John Armstrong
