1343CCB, 1345CCB, 1347CCB, and 1349CCB equipped with compact cabinet dial.

manufactured by the Robert Horse Corporation Limited, Rowa-Richardson Scale Division, Dominion Industrial Building, Ville St. Pierre, Quebec.

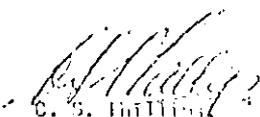

Rating of Apparatus: The capacities range from 600 pounds to 3300 pounds depending on the model and registering equipment.

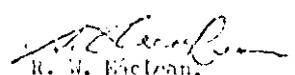

Application: Weighing of merchandise such as animal carcasses suspended from an overhead track.

Conditions: As prescribed in P.C. 6824

Description: These devices are overhead track scales whose load receiving track forms a section of an overhead conveyor system. The leverage system consists of two main A type levers and a transfer lever, except in the case of model 1349 which has two B type main levers with a track to ceiling clearance of 7 1/2 inches; whereas the track to ceiling clearance for the other three models are 23 inches. Check links are installed in the leverage system to prevent lateral or end movement of the live track. The means of registration is as stated above.

Testing: The standard tests for an overhead track scale shall apply.
