Aurora Scale Manufacturing Limited
P. O. Box 23, 81 Temperance St.
Aurora, Ontario L4G 3H1

Type of Device - Axle Load Scales, Two Section Fabricated steel lever system for permanent installation.

Kodel No. Rating or Capacity Remarks

Models as listed on attached sheet. Scale capacities may be in equivalent metric unit.

Apparatus: These scales may be equipped with full capacity or type registering beams manufactured for Aurora Scale Manufacturing Limited by Winslow Scale Co., Terre Haute, Indiana, U.S.A. Analogic model AN 5325 digital indicator with load cell(s) in steelyard Rod.

Accessories: Remote indicator and weight printer must meet all the requirements and perform in accordance with the Weights and Measures Act and Regulations.

Application: For the determination of vehicle axle loading for highway control only and not to be used in general trade unless the vehicle or commodity being weighed is entirely supported by the weighing element.

Special Conditions:

When installed as on axle load scale:

- 1. The scale shall be marked "Restricted for highway weight control only".

 This marking must be in a location visible to the operator and must be of a permanent nature with letters 1/4" or 6 mm minimum height in English or/and French.
- 2. The approaches at each end shall be straight in the same plane as the platform and of sufficient length and width to ensure the level positioning of vehicles during weight determination.
