## 1. Scope

### 1.1 General

This document is Advatek Systems Inc.'s Quality Assurance Manual. It describes Advatek Systems Inc.'s Quality Assurance Program that meets all the requirements of *Measurement Canada's standard S-A-01* for their accreditation program.

### 1.2 Applicability

Advatek Systems Inc.'s Quality Assurance Program will include the following types of inspections:

- a) all initial inspections performed in factory pursuant to the *Weights & Measures Act*;
- b) all field initial inspections pursuant to the *Weights & Measures Act*;
- c) all subsequent inspections performed in factory pursuant to the *Weights & Measures Act*;
- d) all subsequent field inspections pursuant to the *Weights & Measures Act*;
- e) all factory re-inspections pursuant to the *Weights & Measures Act*;
- f) all field re-inspections pursuant to the *Weights & Measures Act*.

Complaint inspections are excluded from this program.

Concerning our accreditation, a list of all devices applicable (including types and subtypes) will be kept in Quality Records (4.16). Any additions to this list shall be approved by *Measurement Canada*.

Our accreditation to perform inspections on these devices will apply anywhere in Canada.

### 1.3 Eligibility

Concerning the application and maintenance of the accreditation, Advatek Systems Inc. agrees to follow all policies and procedures of *Measurement Canada* regarding the accreditation process.

### 1.4 Attachments

None.
