September 9, 2002

Subject: **NEC V25 EOL** (See the next page)

Due to the EOL (End-of-life) of NEC V25,

TERN controllers based on V25 are affected:

V25-Engine(VE), C-Engine(CE), V104, TinyDrive(TD, TD-A, TD-B), MiniDrive(MD).

These products will be eliminated from TERN's product offerings after exhausting all inventory of V25 CPU.

TERN will keep making these controllers as long as V25 CPU parts are available.

Replacement Controllers:

A-Engine, A-Engine86, i386-Engine, A104, TD40

Customers need to do "Last Forecast" as soon as possible.

In order to secure your controllers, customer must place "Last Time Buy" by **Jan. 31, 2003**.
