

Technical Bulletin

Please Distribute to all Sales and Service Personnel

Mettler-Toledo, Inc.
Scales & Systems

Number: R-4-99
Date: 5-21-99
Model: SmartTouch® Master
Subject: New I/O Logic PCB

All SmartTouch® masters manufactured beginning March 1999 (date code CA) will have a new I/O Logic PCB. The new PCB contains the surge protection for the RS422 lines for connection to the computer. No other surge protection such as that described in bulletin R-13-98 is needed. Kits to upgrade a satellite to a master has the new PCB as well. The part number for the new I/O Logic PCB is 15546600A. It replaces I/O Logic PCB, 14662500A. Please make note of this change to your copy of the 8360, 8361, 8460, and 8461 Technical Manual and Parts Catalog.
