

# 7562 DigiTOL® TRUCKMATE® Truck Scales

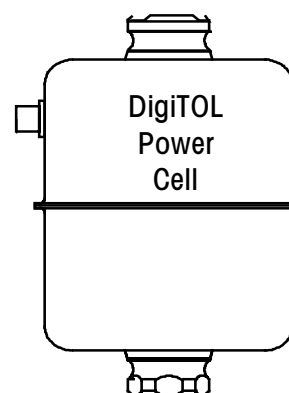

The METTLER TOLEDO® 7562 DigiTOL TRUCKMATE consists of an orthotropic steel deck design. This orthotropic design consists of trapezoidal shaped steel rib sections that are continuously welded to the steel deck plate and end plate. This results in a torsionally stiff closed rib deck. The TRUCKMATE is a low-profile modular design which can be installed above ground eliminating the need for a pit. The pre-wired modules are assembled completely at the factory. This means easy and fast installation... typically one day. DigiTOL stainless steel power cells keep downtime to a minimum by providing reliable protection against RFI, water, and lightning. Each 7562 truck scale comes with an 8530VS DigiTOL scale indicator and ticket printer. The 8530 provides the ability to produce custom weight tickets and the flexibility to interact with PC's for data handling.

Specifications	200,000 lb
Module Lengths (ft.)	15' or 17'-6"
Module Width (ft)	11' standard (10' optional)
Material	ASTM A36 Steel
Dual Tandem Axle Capacity (lb)	55,000 lb ("r" factor = 1.62 )

Features	Benefits
Stainless Steel/Hermetically Sealed DigiTOL Power Cells	<ul style="list-style-type: none"> <li>■ Strong, reliable signal</li> <li>■ Built in microprocessor to automatically compensate for creep, non-linearity, and temperature changes</li> <li>■ Built in diagnostics simplify service and maintenance</li> <li>■ Provides maximum protection in harsh environments</li> <li>■ NEMA 6P (Submersible) Rating</li> </ul>
Orthotropic Design	<ul style="list-style-type: none"> <li>■ Very Rigid Structure</li> </ul>
Wider weighbridge (11' vs 10')	<ul style="list-style-type: none"> <li>■ Extra room for optimum traffic flexibility including wide tired vehicles</li> </ul>
NEMA 4X Stainless Steel Junction Box	<ul style="list-style-type: none"> <li>■ Extra protection for harsh environments</li> </ul>
8530VS DigiTOL scale indicator	<ul style="list-style-type: none"> <li>■ Custom weight ticket ability and data handling flexibility</li> </ul>
NTEP Certified for Class IIIL, 10,000d (COC# 93-108)	<ul style="list-style-type: none"> <li>■ Legal-for-Trade applications</li> </ul>

The 15' and 17'6" modules can be combined to obtain a number of different scale lengths. A 10' axle scale is also available. Mettler Toledo has authorized sales and service offices throughout the world. Contact your nearest authorized Mettler Toledo distributor for details on Mettler Toledo Truck Scales...or any other weighing application.
