

Service

Service

for Heavy Capacity Scales

**The Knowledge, Experience and Equipment
to Service Your Scale Operations**

METTLER TOLEDO

Global Scope Needs Global Service

When you need fast response, it helps if your problem-solver is nearby. That's an advantage of partnering with METTLER TOLEDO — no matter where in the world you happen to be. Thanks to our international network, we have certified, specially trained service technicians in your area, which means that no one is more qualified, anywhere, to service your METTLER TOLEDO equipment.

Certified Heavy Capacity Specialists

You want to keep your scale operations at maximum efficiency. All METTLER TOLEDO scale technicians are extensively trained and experienced. Our Certified Heavy Capacity Service Program includes only those technicians who have been trained and certified in heavy capacity service with its unique requirements.

Parts

Our service vehicles are fully stocked with parts and equipment to get the job done quickly and completely.

Heavy Capacity Test Trucks and Equipment

The most advanced and best equipped in the business. This includes Confined Space safety equipment, as well as certified test weights to meet increased minimum legal requirements. Our fleet of test trucks can test truck scales, railroad scales, hopper/tank scales and floor scales. Response time to your site is normally within 24 hours. This test service can be used to check any brand of heavy capacity scale.

Conversions and Modernization

We can help you upgrade to leading edge technology very cost-effectively.

Much More Including...

– Truck Scale Preventive Maintenance, Inspection and Calibration Services

– Standard and Custom Designed Service Agreements. We offer a wide range of agreements designed to keep your equipment in top working condition.

Easy access to truck scale load cell for technician repair.

– National Service Programs... to provide centralized invoicing, reporting, and coordination of scale services nationally.

– Emergency Service. Our factory trained technicians are ready to service your equipment 24 hours a day, seven days a week.

– ISO Calibration Services...we'll provide you with quality services for weighing systems which meet ISO 9000 requirements.

– Aftermarket Services...same-day for parts, circuit boards, load cells.

METTLER TOLEDO Service stands ready to meet the changing technical demands for heavy capacity scale maintenance. We listen to our customers, and train our technicians on the latest weighing innovations...without losing sight of current scale service requirements. Call your nearest sales office or authorized distributor for details.
