# TIMETEK SOLUTION SUITE FOR FISHERIES

Advatek Systems provides a comprehensive solution suite for seafood producers to automate labour management and other administrative tasks such as production monitoring and access control.

Modular design means that while all components are designed to work together, you have flexibility to select only the individual modules that are right for your facility.

# RF scanner and weighing technology

Since we installed our first batch of automated scanners for timekeeping in a seafood facility in 1995, we have continued to innovate and introduce new technology to meet the growing needs of this industry.

Each of the solutions have been tailored to

# timetek solution suite
## for seafood producers

### RF BADGE SCNNERS

By assigning RF badges the scanners in the plant are able to identify employees. This technology is used in our timeclocks to record employees' IN and OUT times, at bonus stations to credit meat production and pieces counted, and at electronic locks to provide access control.

### TIMETEK SOLUTIONS

- LABOUR TRACKING + PAYROLL
- LITE AUTOMATED TIMEKEEPING
- INCENTIVE BONUS WEIGHING
- INCENTIVE BONUS PIECE COUNTING
- HUMAN RESOURCE MANAGEMENT
